# BANDEJA.

Northants padel crew | Setup in about 10 minutes, all free

## 1 Create a GitHub account

Go to **github.com** and sign up (free). A computer browser makes uploading easier than a phone.

## 2 Make a repository

Tap **New repository**. Name it **bandeja**, set it to **Public**, tick **Add a README**, then **Create**. (Free Pages needs a public repo. Nothing secret is stored.)

## 3 Upload the three files

Unzip **bandeja_live.zip**. In your repo choose **Add file > Upload files**, drag in **index.html, icon.svg** and **manifest.webmanifest**, then tap **Commit changes**.

Already set up an earlier version? Replace index.html and delete **.github/workflows/availability.yml**. The scripts and data folders are no longer used.

## 4 Switch on the website

**Settings > Pages**. Under Source pick **Deploy from a branch**, branch **main**, folder **/ (root)**, then **Save**. After 1 to 2 minutes your site is live at **yourname.github.io/bandeja**.

## 5 Open it on your phone

Visit your site address, then use **Share > Add to Home Screen**. Enter your name when asked. Everyone in the group does the same with the same address.

## 6 Find, add and share a court

Tap **Find a court on Playskan**, tap a green slot and note the club, time and price. Come back, fill in the form and tap **Post & share to WhatsApp**. You are the booker.

## 7 Friends join, you book

Friends tap the link and press **I'm in**. When enough are in, book the court on the club page, then tap **I've booked it**. Friends pay you their share and tap **I've paid**. Use **Cancel game** if plans change.

## If something goes wrong

**Live slots are not inside the app yet:** Playskan has no public data feed, so Bandeja links to it instead. To pull slots in, email Playskan and ask about data access.

**Check each map pin** the first time you use a venue. Pins search by name and address and can occasionally land in the wrong place.

**Updates need a new link:** there is no server, so the group sees joins, payments and cancellations when someone posts an updated link.

**Always confirm on the venue booking page** before paying. Prices shown are typical ranges, not live prices.
